

How To Sew A Pocket:

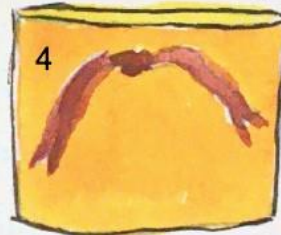

You will need: a rectangular piece of fabric, a length of ribbon or string, a needle and thread.

With the outside of the fabric face down, hem the edges that will become the top of the pocket.

Fold the fabric in half so that the outside is together. Use a loop-stitch to sew the two halves together.

Open out your pocket so the seams are on the inside. Tie a knot in the middle of the ribbon and sew the knot onto your pocket, make sure you only sew it onto one half.
